AI for Modern Legal Workflows

Lexa AI – Smarter Legal Workflows

Lexa is an AI assistant that helps lawyers and paralegals draft contracts, summarize case law, and automate legal research. It's built for solo practitioners, small firms, and legal teams that want faster, more accurate document work.

Setup: Easy for solos, moderate for larger firms that need integrations or strict data controls.

Integrations: Works with Clio, MyCase, Google Drive, Microsoft Word, and Outlook.

Alternatives: Harvey AI, Casetext CoCounsel, and Spellbook.

Security: End-to-end encryption, GDPR and SOC 2 compliant, with optional private-cloud deployment.

Pricing: From \$49/month (or \$490/year) for individuals; custom plans for firms.
